

TUITION FEE WAIVERS, CONCESSIONS AND SCHOLARSHIPS

ACADEMIC YEAR 2026/2027

ANNEX TO THE UNIVERSITY REGULATIONS ON STUDENT FEES

Degree programmes concerned: Materials Science (L-Sc. Mat) and Cognitive Sciences and Studies on the Mind (LM-55)

1. Purpose and Scope

This Annex governs, for the 2026/2027 academic year, the discounts, exemptions, and scholarships applicable to students enrolled in the Bachelor's Degree Programme in Materials Science (class L-Sc. Mat.) and the Master's Degree Programme in Cognitive Sciences and Mind Studies (class LM-55), in coordination with the University Regulations on student fees at UniNeuromed.

The University-approved discounts apply to the annual university contribution, which amounts to €2,500.00 for Materials Science and €3,000.00 for Cognitive Sciences and Mind Studies (LM-55). The regional fee for the right to university study, the stamp duty, and any further amounts payable to third parties, where applicable, remain governed separately. The discounts referred to in Article 3 are reserved for students intending to enrol in the first year in the 2026/2027 academic year. Recognition of the benefit is conditional upon completion of enrolment and is granted within the annual expenditure limit set by the competent University bodies.

For the 2026/2027 academic year, the number of available places is initially set at 10 for the Bachelor's Degree in Materials Science (L-Sc. Mat.) and 20 for the Master's Degree in Cognitive Sciences and Mind Studies (LM-55). The number of beneficiaries may not exceed these quotas; any changes shall be adopted by means of a specific measure and published in accordance with Article 7.

2. Mandatory exemptions under applicable legislation

UniNeuromed applies the exemptions and other mandatory fee reductions provided for by current legislation and applicable to legally recognised non-state universities, in the cases and under the conditions laid down therein. Mandatory statutory exemptions are distinct from discounts autonomously approved by the University and are granted following verification of the relevant requirements by the Student Registry Office.

3. University-approved discounts

Except as provided for mandatory statutory exemptions, for the 2026/2027 academic year UniNeuromed grants the following, non-cumulative discounts/reductions to the annual university contribution:

3.1 Merit-based discount – 20% reduction

Course	Requirement	Reduction	Discount Amount	Remaining Contribution
Materials Science	Upper-secondary school diploma obtained with a final grade of 100/100, with or without honors	20%	€ 500,00	€ 2.000,00

C.F. 90051570944
D.M. n.140 del 28 gennaio 2026
Reg. C.d.C. il 2 febbraio 2026
PEC: unineuromed@legalmail.it

Course	Requirement	Reduction	Discount Amount	Remaining Contribution
Cognitive Sciences and Mind Studies (LM-55)	Bachelor's degree used for admission to the program obtained with a final grade of 110/110, with or without honors	20%	€ 600,00	€ 2.400,00

For qualifications obtained abroad, recognition of the discount is subject to an assessment of grade equivalence according to the criteria established by the University.

3.2 Economic status-based discounts (ISEE)

ISEE range	Reduction	Materials Science – remaining contribution	LM-55 – remaining contribution
Up to € 23.000,00	20%	€ 2.000,00	€ 2.400,00
From € 23.000,01 to € 30.000,00	10%	€ 2.250,00	€ 2.700,00

The ISEE requirement applies solely for the purposes of the discount governed by this section.

A currently valid ISEE referring to subsidized benefits for the right to university study is required. Documentation must be submitted in the manner and within the deadlines communicated by the University. Certificates containing omissions or discrepancies must be regularized within the deadline communicated by the Student Services Office; otherwise, the application will not be accepted.

3.3 PSICOMED discount – 30% reduction for LM-55

Students regularly enrolled in the School of Specialization in Psychotherapy of the Italian Institute of Psychoanalysis for Research and Clinical Practice – PSICOMED, who matriculate in the 2026/2027 academic year in the Master's Degree Programme in Cognitive Sciences and Mind Studies (LM-55), are granted a 30% reduction of the annual university contribution, subject to payment of the remaining annual contribution – amounting to €2,100.00 – in addition to any amounts due as the regional tax for the right to university study and the stamp duty.

3.4 Discount for staff, collaborators, relatives and in-laws, and the Neuromed Group – 35% reduction

A 35% reduction of the annual university contribution is granted to:

- Employees of IRCCS I.N.M. Neuromed S.p.A. and of companies directly or indirectly held by IRCCS;
- Holders of coordinated and continuous collaboration agreements (co.co.co.) with IRCCS I.N.M. Neuromed S.p.A. and/or with companies directly or indirectly held by IRCCS;

- Holders of study, research, or training grants awarded by IRCCS I.N.M. Neuromed S.p.A. or by the aforementioned companies in which it holds an interest, even indirectly, provided that the relevant relationship is active at the time of the discount request;
- Employees of suppliers of goods and services to IRCCS I.N.M. Neuromed S.p.A., according to criteria that will be determined by the University on a year-by-year basis;
- The spouse, civil union partner, or de facto cohabiting partner (as per Law No. 76/2016), as recorded in the population registry, and relatives and in-laws up to the second degree of the persons indicated above.

Course	Reduction	Discount Amount	Remaining contribution
Materials Science	35%	€ 875,00	€ 1.625,00
LM-55	35%	€ 1.050,00	€ 1.950,00

The relationship, appointment, or grant that entitles the applicant to the discount must be active on the date the request is submitted. The Student Services Office verifies the existence of the employment relationship and, for relatives and in-laws, the relevant family tie, by means of the required documentation or declarations made in accordance with applicable legislation

4. Common rules

- **Application and Deadlines:** The discount application must be submitted online, including during the pre-enrolment phase, in accordance with the procedures communicated by the University and, in any case, within the enrolment deadlines set out in the Study Manifesto. Verification of requirements is carried out, where possible, before the issuance of the PagoPA notice for the first instalment, so that the contribution due is determined from the outset at the discounted rate. Any discount applications submitted after the deadlines may be considered by the University, subject to available resources and quotas.
- **Documentation:** The application must be accompanied by an identity document, documentation relating to merit (if not already acquired by the University), and, exclusively for the discount referred to in paragraph 3.2, a valid university ISEE. For paragraphs 3.3 and 3.4, documentation or a substitute declaration relating to enrolment in PSICOMED, the relationship with the Neuromed Group, and the family or in-law tie must be attached.
- **Assessment and ranking list:** Applications are verified by a Committee appointed by the University. If the number of duly submitted discount applications exceeds the available places indicated in Article 1, a ranking list is drawn up for each programme, giving priority, in order, to merit-based discounts and ISEE-based discounts. For the discount referred to in paragraph 3.2, the order is ascending by ISEE; in the event of a tie, priority is given to the higher diploma grade for Materials Science or the higher degree grade for LM-55, and, in the event of a further tie, to the chronological order of the complete application. For the other discounts, the order is descending by the same grade and, in the event of a tie, chronological.

UNINEUROMED

- **Non-cumulability:** Discounts approved by the University cannot be combined. If more than one benefit is applicable, the one that is financially most favourable shall be applied.
- **Mandatory exemptions:** The non-cumulability rule does not limit exemptions that are mandatorily provided for by applicable legislation; in such cases, the legal provisions shall apply.
- **Reduction application:** Recognized reductions are apportioned proportionally across the three instalments of the university contribution, according to the same structure as for the ordinary contribution (56% – 22% – 22%). If the benefit is granted after the issuance or payment of one or more instalments, the University will make adjustments on subsequent instalments and, where necessary, refund any amounts overpaid in accordance with applicable procedures.
- **Excluded amounts:** Reductions apply exclusively to the university contribution and do not extend to the regional tax for the right to university study, the stamp duty, or other amounts payable to third parties.
- **Annual validity:** Discounts apply exclusively to the 2026/2027 academic year and do not entail automatic recognition of the same benefit for subsequent academic years.
- **Checks and forfeiture:** The University verifies the truthfulness of declarations and the existence of the required conditions. In the event of false declarations or improper receipt of the benefit, the benefit shall be revoked and the amounts due shall be recovered, without prejudice to any further consequences provided for by law.
- **Monitoring:** The competent offices record applications, beneficiaries, excluded applicants, and the total amount of reductions applied, broken down by programme and type of discount.

5. Scholarships and additional support measures

Any further discounts, scholarships, awards, or support measures are subject to the University's assessment. Their establishment, including with contributions from third parties, may be provided for through specific calls for applications or measures that define the eligible recipients, requirements, selection criteria, amount, duration, application procedures, and any grounds for forfeiture.

6. Processing of personal data

Personal data, including data relating to economic status and family relationships, are processed by UniNeuromed exclusively for the administration and monitoring of discounts, in compliance with Regulation (EU) 2016/679 and applicable national legislation.

7. Publication and effectiveness

This Annex shall become effective following approval by the competent University bodies and shall be published on the institutional website and/or the student portal. Any implementing provisions shall be communicated through the same channels.

In the event of any inconsistency with informational communications, this Annex and subsequent formal measures issued by the University shall prevail.
